

York County Intercounty Transfer – Additional Information
(June 2020)

York County:

A copy of the risk assessment tool completed on the individual must be included in the intake packet. York County does not accept cases that assess as low risk on an assessment tool. If the sending County has concerns about a case that assesses as low risk, but the County has additional information that overrides the risk assessment, please contact Donald Overmoyer to discuss the case.

Donald Overmoyer, Deputy Director
