Issue: Alcohol Highway Safety Class transfer fee

Question: (from Wyoming County)

I was asked to send an email out to all chief's regarding the imposition of a court administration fee to transfer Alcohol Highway Safety Classes to another county?? We generally keep offenders in our county whenever possible to complete the course here where they committed the offense, but at times we transfer the offender's class to the county of their residence, or allow them to complete the course online. We have heard that some counties may be charging a small fee for the transfer? Could you send an email out to the Chief's association so I could see how many counties are doing this

Bradford County
